

Keeping your eyes happy and healthy.

2014 ESSENTIAL PEDIATRIC VISION BENEFITS

## Maintaining healthy eyesight is important to your overall health.

New in 2014, as a part of your medical benefits, all children up to the age of 19 are eligible for vision care benefits.

Routine eye examinations are essential for children to ensure that they are ready to learn in school. In addition, experts say that good vision is vital to the learning process as more than 80 percent of learning takes place through the visual system.

For children, a comprehensive eye examination is also an invaluable diagnostic procedure, able to detect more than 30 systemic diseases and allow for cost-effective, early intervention into the treatment and management of those conditions.
